Dear Councillor

## **Review of supported bus services in Chesham and Amersham**

Enclosed are details of revised bus timetables for services in the Chesham and Amersham area. These result from commercial changes being made by the bus operator as well as the need to improve reliability and make more efficient use of those routes subsidised by the County Council. As with many budgets across the Authority, funding for subsidised bus services has been reduced and therefore some savings have to be made. The majority of travel opportunities have been maintained with the priority being those routes which are used regularly. An explanatory note is included as well as a list of the current routes that are affected as in some cases new route numbers will be introduced.

These revised services need to start on 7<sup>th</sup> September to co-ordinate with commercial changes being made from this date so I would ask for any comments on the timetables by 31st July, although earlier responses would be appreciated if possible.

To comment or request for more information on the proposed timetables please contact a member of the Public Transport Development Team using the contact details at the top of this letter.

Yours Faithfully

Andy Clarke  
Group Manager: Transport Services
